

Build A Profile That Stands Out

Because good grades are only part
of the story

Getting into a leading university takes
more than academic performance.

What students explore, create,
contribute to and pursue outside
the classroom can help tell a more
complete story about who they are.

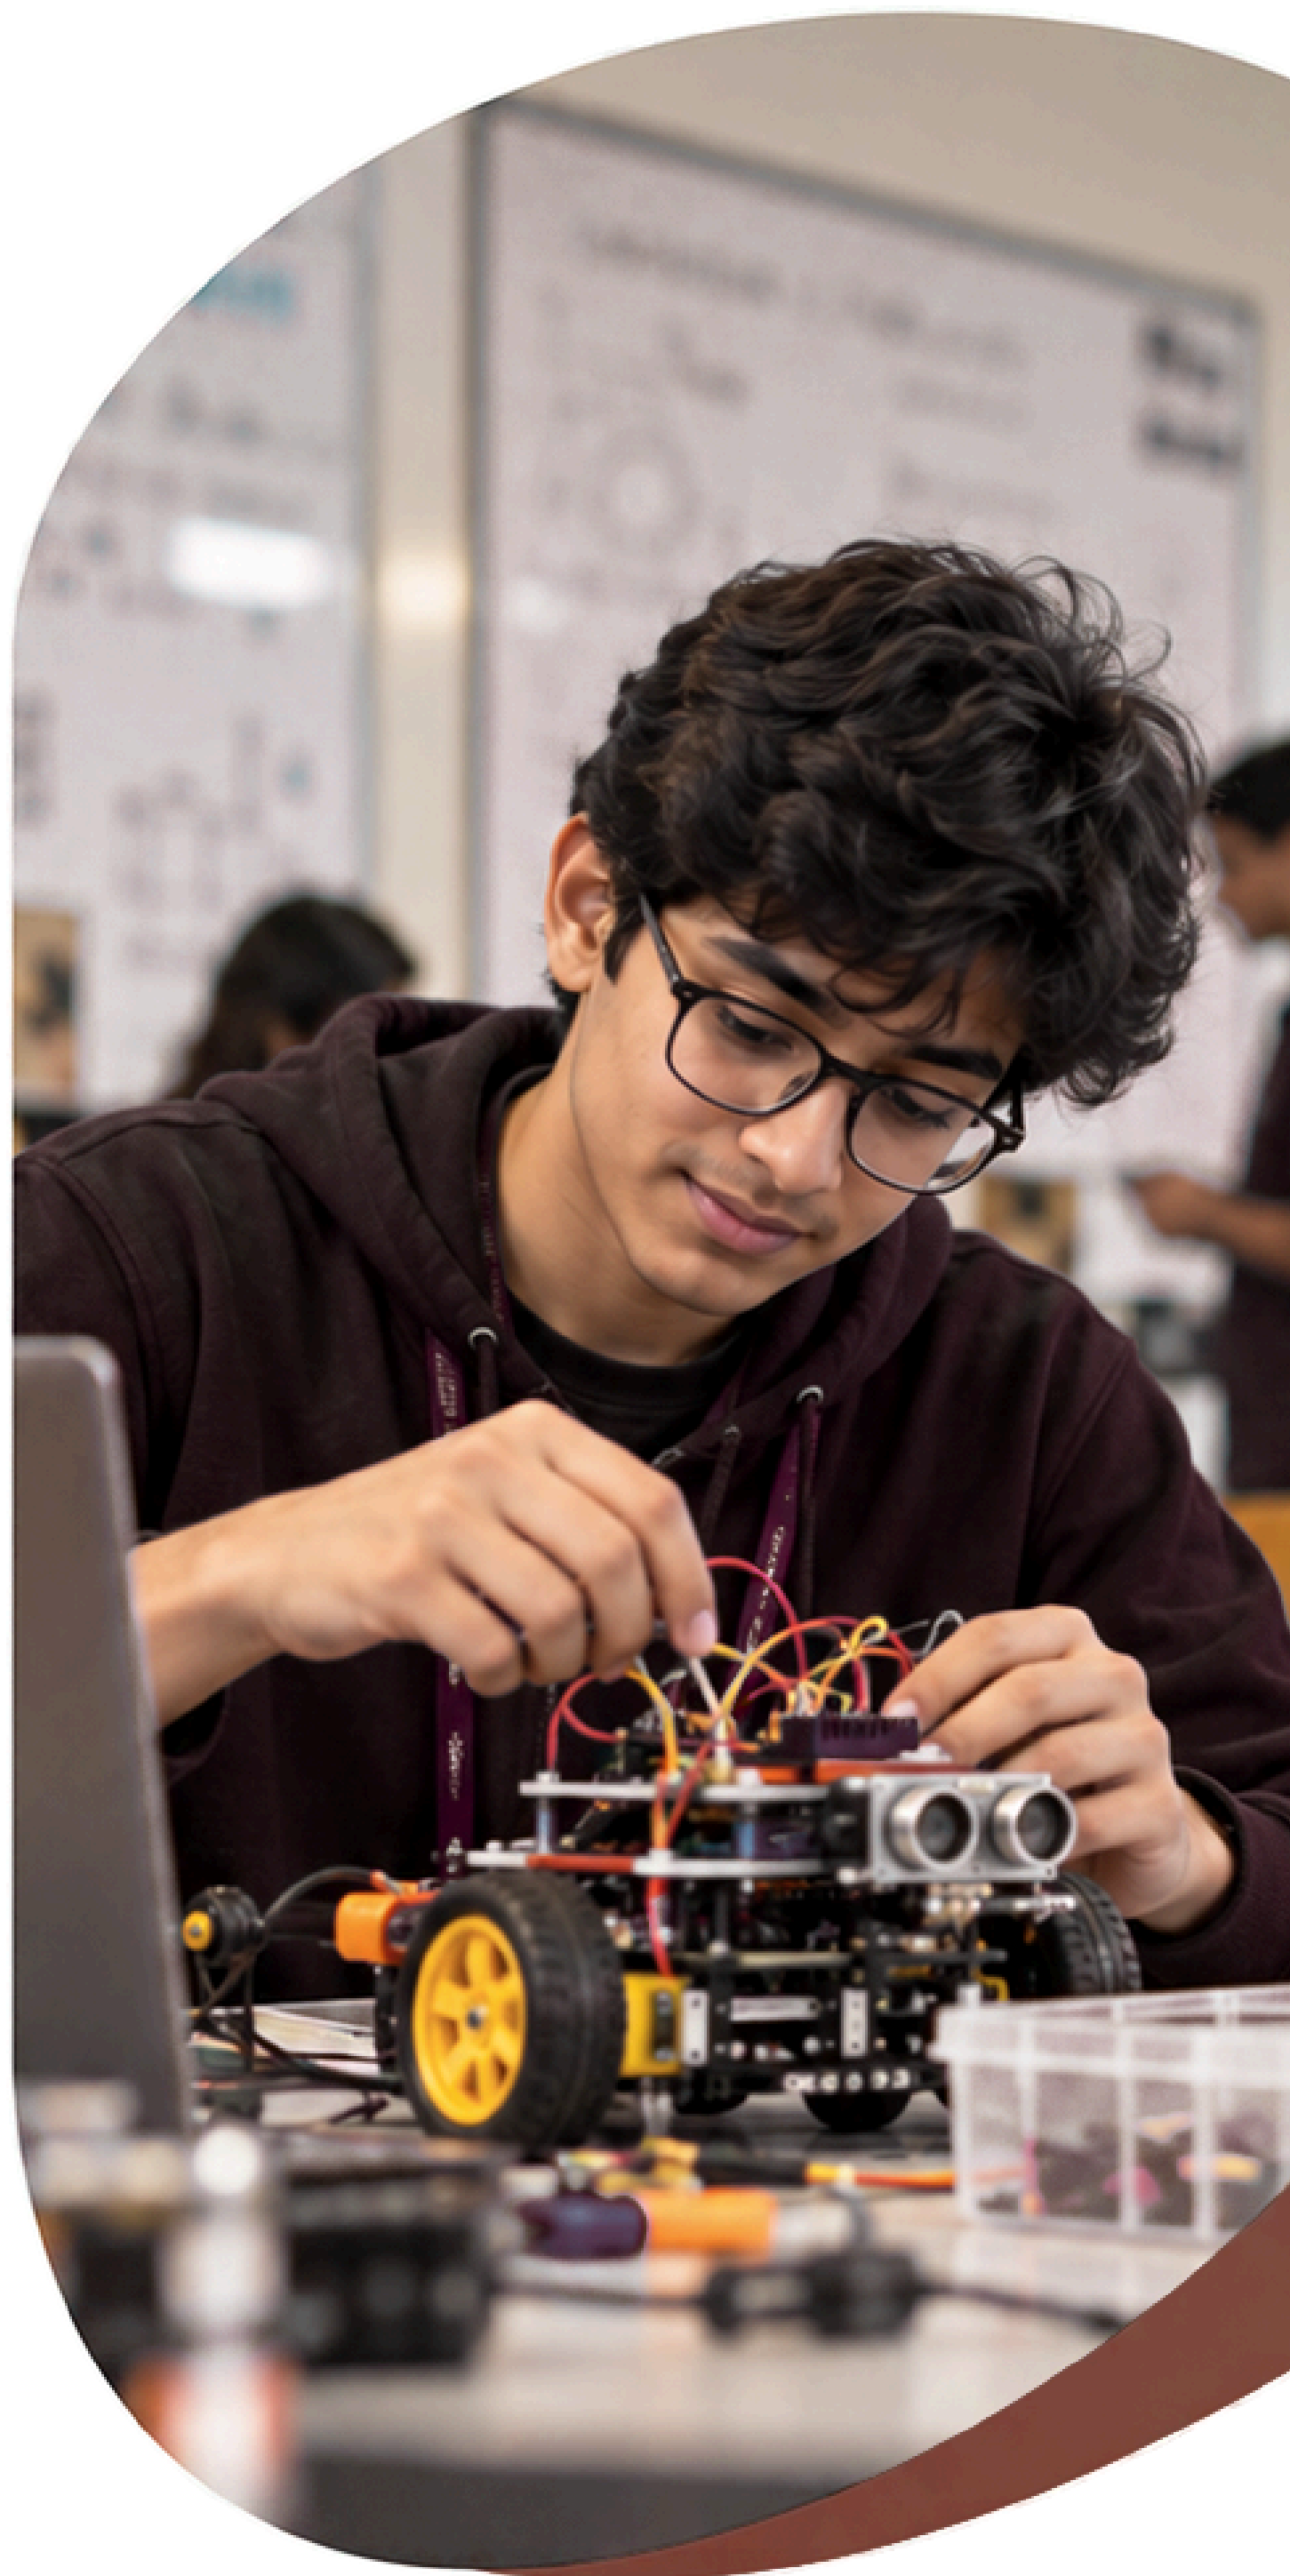

But where do you find the right
experiences for your child?

Meet ProfileLeague

One platform to discover, compare and
choose programs that match your child's
interests, goals and stage of learning.

Your Child Has Good Grades. What Else?

58%

of parents worry their children
aren't learning the right skills for
the future.*

*Source: Project Tomorrow, Speak Up Research [🔗](#)

Good grades matter. But for competitive university admissions, they are only part of the picture. Universities also look at how students explore their interests, take initiative and apply what they've learned beyond the classroom.

Research programs, internships, competitions and summer experiences can help students discover their strengths, develop practical skills and build a profile that reflects who they are beyond academic scores.

The Challenge?

Finding What's Worth Pursuing.

Research programs on one website. Summer schools on another. Competitions, internships and Olympiads scattered everywhere.

For parents, that means:

Spending hours researching programs.

Too many options, with no easy way to find the right fit.

Struggling to compare quality, credibility and cost.

Limited information makes it difficult to make informed decisions.

Missing important application deadlines.

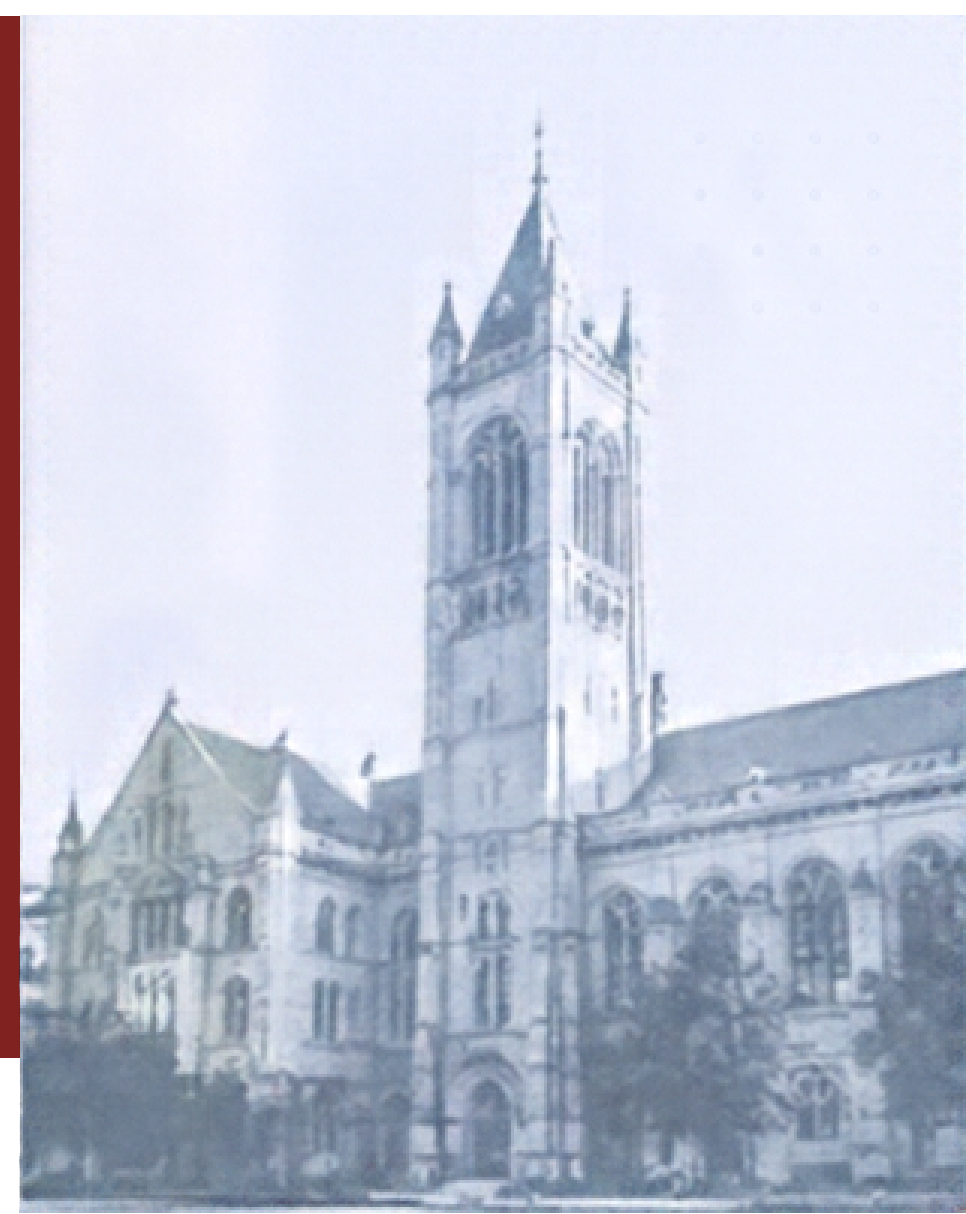

Keeping track of multiple deadlines can be overwhelming.

Wondering whether a program will genuinely benefit their child.

Uncertainty about the skills, experience and value their child will gain.

**The problem isn't a lack of choices.
It's knowing which choices make sense.**

Find What Makes Your Child's Profile Stand Out.

ProfileLeague brings together reviewed programs and experiences for students, making it easier for families to explore options and make informed decisions.

Discover What's Worth Pursuing.

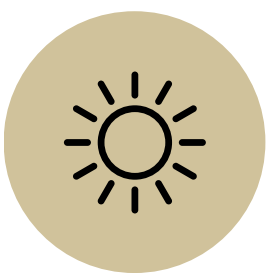

Research Programs

Explore subjects beyond the school curriculum.

Internships

Gain exposure to professional environments and real-world work.

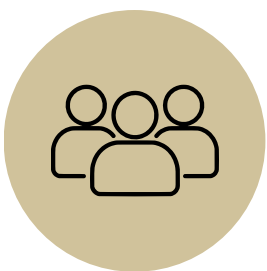

Summer Programs

Learn, collaborate and experience new academic environments.

Competitions & Olympiads

Challenge knowledge, skills and problem-solving abilities.

Social Impact

Participate in meaningful community-focused initiatives.

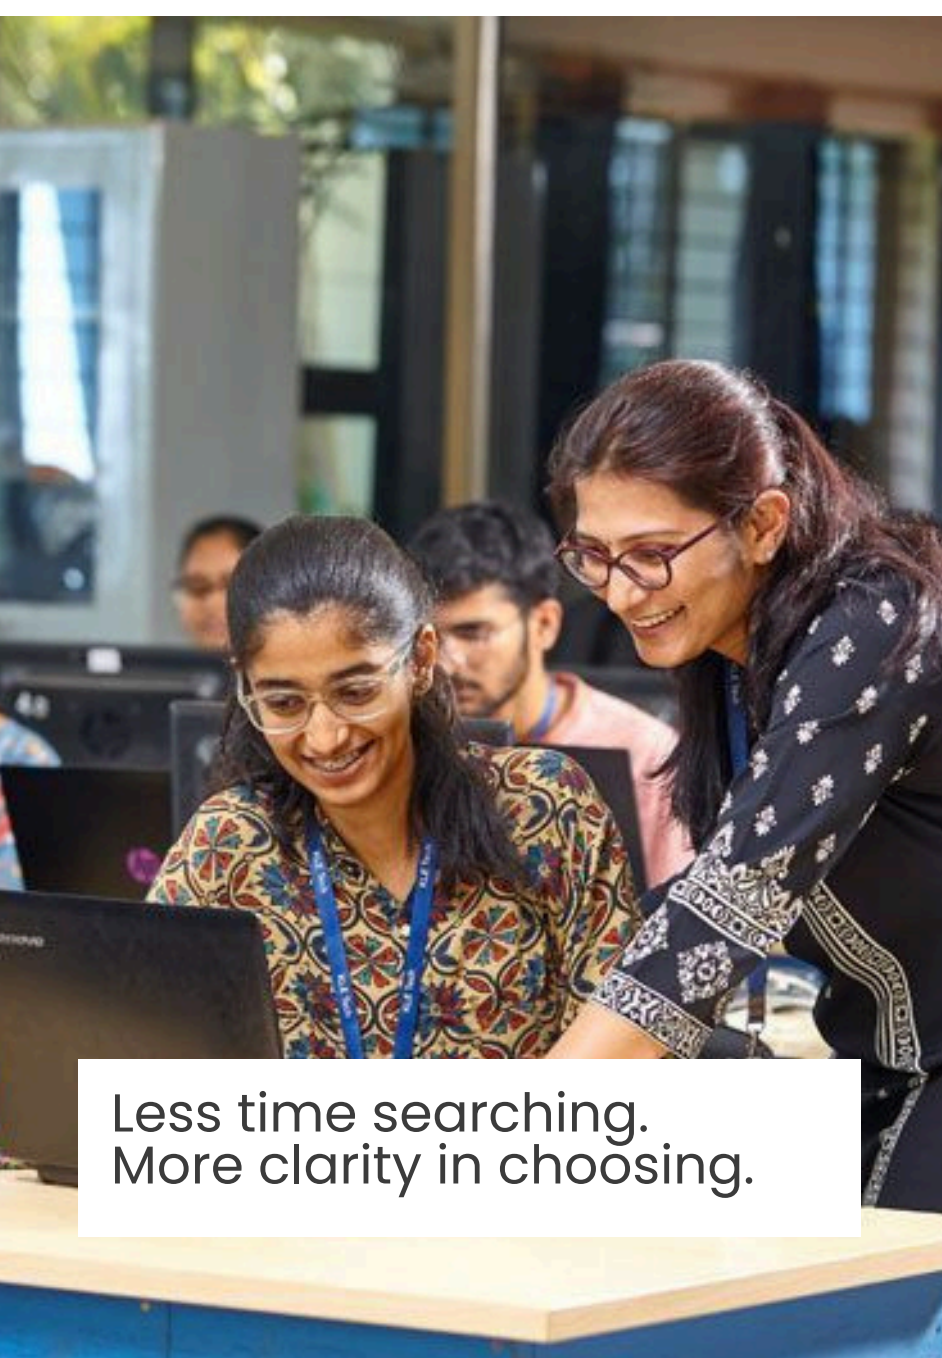

Skill Building

Develop practical skills beyond textbooks.

Test Prep & Study Abroad

Explore resources and services for the next stage of education

How ProfileLeague Works

Explore

Discover programs based on your child's grade, interests and goals.

Compare

Review eligibility, duration, cost, and expected outcomes.

Choose

Shortlist suitable options and proceed with the application process.

Go beyond finding programs to making informed choices.

Every listing on ProfileLeague is reviewed before it goes live. We look at what matters to parents and students:

Credibility

Who is offering the program?

Practical Details

What are the time, duration and deadlines?

Eligibility

Which grades and students is it suitable for?

Value

What does the student gain for the time and money invested?

Selection

What does the application or selection process involve?

Because a strong college profile isn't built by collecting certificates.

It's built through genuine interests, consistent effort and meaningful experiences.

**Explore.
Compare.
Plan Better.**

When Should Your Child **Start?**

Grade 9:

Explore interests and try new experiences.

Grade 10:

Build on interests and develop skills.

Grade 11:

Pursue more focused and meaningful projects.

Grade 12:

Reflect on experiences and prepare to present them in applications.

There is no single path that works for every student.
What matters is choosing thoughtfully.
